Angela - We're in the middle of a global pandemic. We have the largest cluster of cases in America, according to the NYT. And you're giving me a day and half to drop everything so I can track down some invoices for you on a studio we use to make her available to the media?

We are responding to media from border to border in the state and coast to coast nationwide. Your timeline is unrealistic. I will get you details when I have them.

Hello,

I've asked for a little more time to work on this story in order for you to provide me with the answers to my questions and look up invoices. I would still really like an interview with someone from your office. The story now airs tomorrow to allow you more time!

Thank you!

Angela
